

**Tim in KY** VaE Stage 19 is 177 kilometers from La Bañeza in León southeast to Áscar. La Bañeza has been used only once in la Vuelta, in 1989. Áscar has never been featured.

**Tim in KY** With only 935 vertical meters of elevation gain along the entire route the course is basically flat. A bunch sprint finish is likely.

09-14-2023  
02:07:14 pm

**Tim in KY** Kilometer zero is scheduled for 13:29 CEST. Finish is imagined either side of 17:30. Current forecast is for temps in the low-20s with rain possible early becoming more likely as the route moves south.

09-14-2023  
02:08:01 pm

**Tim in KY** Rain chances at the start have lessened but still likely at the finish. No DNF yesterday.

09-15-2023  
06:18:07 am

**Charlie in Tenn** Seems that I did not miss much yesterday. Remco won and JV leaders decided to ride for Sep. It did seem that Rog and Vingo found out how much bad publicity you can get from attacking the red jersey when he is on your team.

09-15-2023  
06:37:16 am

**Charlie in Tenn** Congrats to Mikey for a hard fought victory in the superclassico race yesterday. Tim, and I joined him on the podium. There were no changes in the rankings but all 3 of us closed on Jo.

**BusterSci** Anybody else have a hard time logging in? First time I try every day it seems to hang up. Then I reload the page and it works.

**Charlie in Tenn** Nope

09-15-2023  
07:16:59 am

**Tim in KY** No problem on my desktop.

**Tim in KY** Riders in neutral. No news of any DNS.

09-15-2023  
07:17:54 am

**Tim in KY** J-V leads the team standings by 39 minutes over Bahrain. That's got to be a record.

09-15-2023  
07:19:04 am

**Charlie in Tenn** My girl, Honsinger is the break at the tour of Romandie. I might get some fantasy break points.

09-15-2023  
07:20:12 am

**Charlie in Tenn** Tim, I agree.

09-15-2023  
07:20:56 am

**BusterSci** I think the Jumbo issues are really all Rog. Vingo had lost time after being ill the first week and his first attacks were sensible, moving up the standings attacks. He has pulled for Sepp while Rog has sulked. And he said he didn't pass Rog on the Lou because he didn't want to take the extra bonus seconds. He seems much more comfortable with his role here because as raining Tour champ 2x, he has nothing to prove while Rog, never succeeding at the Tour, does.

09-15-2023  
07:20:57 am

**Tim in KY** Yeah. It has looked like a Rog problem this week.

09-15-2023  
07:23:02 am

**BusterSci** Maybe for Vuelta on teams. 86 Tour, La Vie Claire won by 1:51:50

09-15-2023  
07:23:55 am

**Charlie in Tenn** I still think the guy in 3rd should have been free to ride near the top to separate from those behind so I don't fault Vingo or Rog but the second place guy needed to stay with Sep so I do fault Vingo when he looked back at Sep and then rode away.

09-15-2023  
07:24:17 am

**Tim in KY** How did you find that so fast Buster?

09-15-2023  
07:25:28 am

**BusterSci** I feel the opposite, Charlie. I think policing Rog was the most correct move. He sent a message that regardless of how much Rog attacked he wasn't going to get red. In a way, he was protecting Sepp.

09-15-2023  
07:25:34 am

**BusterSci** Tim, I just assumed the year that LVC went 1-2-4 would have been pretty dominant.

09-15-2023  
07:25:55 am

**BusterSci** So I looked up 86 Tour and found the stats.

09-15-2023  
07:26:14 am

**Tim in KY** Damien TouzÅ© (AG2R) DNS today because sick.

09-15-2023  
07:27:39 am

**Tim in KY** Should be past Km0 but no word.

09-15-2023  
07:30:33 am

**BusterSci** Weird. Å The year Froome and Wiggo went 2-3 (1-2 after Cobo DQ) in the Vuelta Sky was 10th in the teams.

09-15-2023  
07:30:35 am

**BusterSci** Movistar took the 2019 Vuelta team competition by 51:38

09-15-2023  
07:30:36 am

**Tim in KY** Two minutes late.

09-15-2023  
07:32:19 am

**BusterSci** And the 2018 by 45:36

09-15-2023  
07:32:21 am

**Charlie in Tenn** If Vingo had not done the same thing the day before, I would agree with you. But Rog had never attacked Sep until that day and was a min behind him at the end of the day.Å Admittedly, both of Vingo's wins were dedicated to his daughter on her birthday and his best friend, Van Hooydonck so maybe.

09-15-2023  
07:32:50 am

**Charlie in Tenn** Movi's director concentrated on the team win for most of those years. PR and getting all of your riders on stage.

09-15-2023  
07:34:45 am

**Tim in KY** Apparently nobody wants to be in the break. Time for my walk.

09-15-2023  
07:35:19 am

**BusterSci** Of course we'll likely never know. Å I think the fact Vingo never pulled and didn't try to come around for the win are points in his favor. Å But I think it is fair to say that Rog was battling Vingo and Sepp is the victim. Vingo's motives are less transparent.

09-15-2023  
07:36:16 am

**Tim in KY** Paul Lapeira (AG2R CitroÅ«n), Mathis Le Berre (ArkÅ©a Samsic), Michal Schlegel (Caja Rural-Seguros RGA) and CIÅ©ment Davy (Groupama-FDJ) have 2:20.

09-15-2023  
08:09:46 am

**BusterSci** Maybe I should go fishing. Å Anybody got one of these guys in the break?

09-15-2023

09-15-2023  
08:09:54 am

**BusterSci** Nice little interview article with Sepp at CN. Â Pretty easy to like the guy. Â Very revealing how he's had to grow into a leader the last week.

09-15-2023  
08:17:17 am

**Charlie in Tenn** I don't recognize any names. No, in the top teams only Susan has Schlegal. I stopped looking at people below me.

09-15-2023  
08:29:57 am

**BusterSci** Well la de dah!

09-15-2023  
08:30:28 am

**Katie S** Good morning, all. Interesting perspective on the Vingo-Rog-Sepp debate. I had both Vingo and Rog as villains, but considering Rog the primary bad actor is interesting. There's got to be a Shakespearean play that tackles such a dynamic. Anyone?

09-15-2023  
08:36:18 am

**BusterSci** "Doug and Dinsdale then formed a gang, which they called "The Gang."

09-15-2023  
08:42:53 am

**BusterSci** Wait. Â You said Shakespeare, not Python.

09-15-2023

09-15-2023

plastic model of the Star Trek Enterprise by Midori models from 1969? Missing instructions and the photo card. Previous owner put the 2 biggest pieces together. No, no takers. Hmm, there is a complete unbuilt one on ebay for \$5,799. Seems our copy should be worth \$150. we will see.

**BusterSci** I had a non-japenses one hanging from the ceiling of my room when I was a kid.

09-15-2023  
08:50:45 am

**Katie S** Good luck, Charlie. Fill the collection plate today!

09-15-2023  
08:51:28 am

**Katie S** Let's consider the history of this model. Who buys a Star Trek Enterprise model and then puts only the two biggest pieces together? I'm going to guess the model was a Christmas present from Grandpa to his grandson, a Trekkie. The kid had never put together a model before, got bored and, since it was 1969, started sniffing the glue instead.

09-15-2023  
08:53:32 am

**BusterSci** Ours was ee-lektrified. Â You could turn the bridge lights and engine nacelles on and off by rotating the deflector dish.

08:54:55 am

**Katie S** niiiiice

09-15-2023  
08:56:06 am

**BusterSci** I don't think that was very realistic. Â Although there could have been a group of redshirts that had to go out and rotate the dish every evening before the night shift and rotate it back on when the morning shift began.

09-15-2023

09:16:35 am

**RCG** But I'm off the hook for this weekend. Not doing it. I've done two weekends in a row and there's too high of a chance of rain here tomorrow. It's been beautifully cool.

09-15-2023  
09:17:29 am

**RCG** I missed entering the last Superclasico race and the women's race

09-15-2023  
09:18:16 am

**BusterSci** The "failed" Kuss one could easily be a Remco Belgian National one, too. All great work, I'm a fan of the brownish background kaleidoscope one. I think the white in that really creates some awesome three dimensionality.

09-15-2023  
09:20:51 am

**Katie S** it does. Kind of a like a giant coronavirus (sorry!)

09-15-2023  
09:22:17 am

**BusterSci** The nice thing about giant coronaviruses is they're too big to go up your nose. They just kind of roll around like giant beach balls.

09-15-2023  
09:23:00 am

**Katie S** or those suction cup balls that you can throw against things and they stick

09-15-2023

**BusterSci** There is no race. Just a club ride with a sprint at the end.

09-15-2023  
09:28:42 am

**RCG** Today's project will be replacing the passenger-side mirror assembly on my vehicle. The part came yesterday. This will entail, taking the door panel off, which will be very fun.

09-15-2023  
09:30:16 am

**Katie S** Oooh, mechanical endeavors.

09-15-2023  
09:32:08 am

**RCG** Last week a guy in a pick up truck was blasting downhill in our neighborhood as I was going uphill. I'm pretty sure he was a contractor type guy. He was looking down at his phone and not paying attention. He went over the centerline, so I pulled to the right to avoid collision and it happened to be recycle day, and somebody had wheeled their huge (heavy, full) recycle bin to the street and it was actually sticking out into the street some. My mirror hit that and the assembly and the mirror shattered. It was pretty impressive. Of course by the time I figured out what had happened, the other driver, who was probably totally unaware of what had happened, was long gone.

09-15-2023  
09:34:20 am

**Katie S** Yipes. That had to get your adrenaline pumping.

09-15-2023  
09:36:41 am

**Rob** RCG, those mirrors are designed to pop off if hit, it should just click back into place.

09-15-2023  
09:38:47 am

**Katie S** Whoa, what is this shoving match?

09-15-2023  
09:50:57 am

**PasadenaK8** Mornin' ~ yes, that was weird.

09-15-2023  
09:51:37 am

**PasadenaK8** Lots of weird stuff going on this morning. Had the same log-in issue that Buster mentioned above. The jolt of coming from gorgeous green mountains of Asturias to this brown and flat terrain. And now, CVV voice is getting all choppy... \*8-}

09-15-2023

09-15-2023  
10:01:27 am

**PasadenaK8** That's getting into some really dusty areas of the basement.

09-15-2023  
10:03:36 am

**PasadenaK8** How are they doing on the time estimates, Tim? (crossing fingers for faster than the fastest fast ever)

09-15-2023  
10:05:16 am

**Katie S** Oh my, it looks like they're racing

09-15-2023  
10:05:55 am

**PasadenaK8** Yeah! CVV: "High speeds, Bob"

09-15-2023  
10:07:21 am

**Katie S** So, my big chore today is to clean my mom's house. My brother did the overnight shift, and I'll go hang w/ her this afternoon. She's had trouble cleaning her house b/c of a bum knee and now she can't really bend over too much b/c of the vertigo. I have been pestering (haranguing/begging) her to let me do the house cleaning - and I think there may have been a breakthrough. I'll strike while the will is willing.

09-15-2023  
10:08:00 am

**Katie S** I am very strangely excited to get to work

09-15-2023  
10:08:22 am

**Tim in KY** Right now they're just a couple minutes faster than the imagined time, K8. That's unusual for a sprint. Usually slower than the slowest at this point.

09-15-2023  
10:08:42 am

**Tim in KY** Too much ambient on Peacock. Hard for me to understand what the guys are saying.

09-15-2023  
10:11:00 am

**Katie S** I'm not sure they understand what they're saying

09-15-2023  
10:11:36 am

**SFinAus** Mornin' mates.

09-15-2023  
10:12:13 am

**PasadenaK8** Thanks, Tim. Maybe the peloton is also bored. Something's up with CVV's audio connection... And you're a very good daughter, Katie S.!! Sure she will appreciate it even more, once it's done.

09-15-2023  
10:12:49 am

**PasadenaK8** Mornin', SFinAus!

09-15-2023  
10:13:30 am

**Tim in KY** If this road were any flatter they'd be riding upside-down.

09-15-2023  
10:15:40 am

**PasadenaK8** O.O:

09-15-2023  
10:17:17 am

**SFinAus** Hey Buster, glad you're back. A big Thank You for getting John to post the TWiCH pods. I loved and having arrived late missed several of them when they aired. I miss Velocast (hence my VG jersey), but I get why they ended it.

09-15-2023  
10:26:54 am

**SFinAus** (Also, my cousin put a BB in his eye back in the day. Unfortunate ricochet.)

09-15-2023  
10:27:58 am

**SFinAus** ah, and he's gone...

09-15-2023  
10:28:18 am

**Katie S** yep, went fishin'

09-15-2023  
10:28:39 am

**Tim in KY** Gap is down to 0:24. Too soon.

09-15-2023  
10:29:19 am

**Tim in KY** K8, they are currently at the fastest imaginable.

09-15-2023  
10:30:04 am

**PasadenaK8** Yeah!

09-15-2023  
10:30:49 am

**Trish in MA** Ok. All caught up. Settled into my office to watch paint dry until the sprint starts.

09-15-2023  
10:31:31 am

**Katie S** Welcome, Trish.

09-15-2023  
10:33:27 am

**Katie S** Agree, Tim, that the gap is shrinking too soon. Wonder if the sprinters' teams will let that break dangle at 20 seconds until it's time to Hoover them up.

09-15-2023  
10:36:25 am

**Katie S** 1 KU!

09-15-2023  
10:36:28 am

**Katie S** No commercial!

09-15-2023  
10:36:31 am

**PasadenaK8** They got my email \*;-)

09-15-2023  
10:36:56 am

**RCG** Mission accomplished!

**Katie S** FANTASTIC!

09-15-2023  
10:39:59 am

**Katie S** Well done!

09-15-2023  
10:40:07 am

**SFinAus** Chapeau!

09-15-2023  
10:40:41 am

**RCG** Way better now. Â It wanâ€™t too bad. Â Probably saved a few hundred bucks. Parts Geek /TRQ parts / instructional YouTube video for the win.

09-15-2023  
10:41:42 am

**PasadenaK8** Kudos, RCG Nice job!

09-15-2023  
10:42:37 am

**RCG** The hardest thing to figure out Â was actually that a zip tie was holding the wires to a cable-holding thingy. Â That was not in the videoâ€™. Â I wasnâ€™t sure it was a zip tie and was afraid of destroying a non-replaceable cable-holding thingy. Â Hubby took a look, said, itâ€™s just a zip tie, so I cut it and proceeded.

09-15-2023  
10:45:45 am

**Tim in KY** Anybody know what those trees are?

09-15-2023  
10:49:01 am

OBJECTS IN MIRROR ARE  
CLOSER THAN THEY APPEAR

**RCG** I once replaced the magnetron on a m<sup>â</sup>™wave with help from a YouTube video.

09-15-2023  
10:49:15 am

**RCG** Green floofy trees.

09-15-2023  
10:49:32 am

**RCG** Stone pines, maybe?

09-15-2023

**Trish in MA** through the roundabout

09-15-2023  
10:52:29 am

**Tim in KY** Looks like the picture of stone pine in Wiki.

09-15-2023  
10:53:33 am

**RCG** Grows in sandy lowland soils

09-15-2023  
10:54:50 am

**RCG** Can be grown for edible pine nuts. Â I wonder if that was an orchard.. sort of had that look

09-15-2023  
10:57:11 am

**PasadenaK8** Peloton's shadow looked like a centipede.

09-15-2023  
10:58:49 am

**Katie S** Bad timing, I have to attend a "Let's Talk About Benefits!" session with the new overlords.

09-15-2023  
10:59:27 am

**Trish in MA** Battistella has 13 secs. on the peloton

09-15-2023  
10:59:30 am

09-15-2023  
11:00:59 am

**Mikey** about flood you trees

09-15-2023  
11:01:23 am

09-15-2023  
11:01:27 am

09-15-2023

09-15-2023  
11:06:31 am

**Tim in KY** Just before 5km it says "road narrows".

09-15-2023  
11:07:17 am

**Trish in MA** Kim, a cleaning competition show? Â I would never, ever be competitive in that....or want to be.

09-15-2023  
11:07:28 am

**Katie S** CLEANING (with double bold-facing)

09-15-2023  
11:07:32 am

**Katie S** this route looks like a sprung paperclip.

09-15-2023  
11:08:23 am

**PasadenaK8** That "Giro dcha." turn looks like it should be "Giro Gotcha!"

09-15-2023  
11:08:38 am

**Tim in KY** Didn't narrow very much.

**Trish in MA** Sprinters are just so macho wen they come across the line.

09-15-2023  
11:18:47 am

**PasadenaK8** Some nasty cuts and road rash crossing the finish line.

09-15-2023  
11:19:12 am

**SFinAus** Apparently the crash was caused by a lead out guy looking back over his shoulder.Â Didn't catch the name.

09-15-2023  
11:20:11 am

**Trish in MA** It was the guy from DSM, I think.

09-15-2023
