

Mons Soseman Don't forget, we have a fantasy league going:

Tim in Ky During the sprint finish, the first person who posts "they're packed like 05-04 17:24

sardines" will be banned from the Pub for life!

Jennifer Simon LOLOLOLOL for real Tim. And buongiorno a tutti! This will be my 05-05 05:34

only chance to pop in until tonight, but glad to see the pub is open for business. Good luck to all of the Nuts teams. May the odds be ever in your favor!

Tim in Ky Too much paint-drying early. Back later. 05-05 05:58

BusterSci I'm kinda here. But to watch. I don't have any video access today or 05-05 06:36

tomorrow.

BusterSci Hi, there. Lonely here.

05-05 06:39

Charles Davis Hi, I am just getting up

05-05 06:39

BusterSci I'm at a client processing some biological tissue. What a thrill.

05-05 06:40

Charles Davis My FuboTV is reshowing the Tour de Romandie. I hope it gets to Italy

05-05 06:45

as it should.

BusterSci I've been waiting for your report to decide if Fubo is for me. Just want to

05-05 06:46

make sure it isn't FUBAR TV.

BusterSci A small group has a 1:20 lead on the peloton after 7km. Mirco Maestri

05-05 06:55

(Bardiani-CSF), Cesare Benedetti (Bora-Hansgrohe), Marcin Bialoblocki (CCC Sprandi Polkowice), Pavel Brutt (Gazprom-Rusvelo), Daniel Teklehaimanot (Dimension Data) and Eugert Zhupa (Wilier Selle Italia)

Charles Davis per CN, Mirco Maestri (Bardiani-CSF), Cesare Benedetti (Bora-

05-05 06:55

Hansgrohe), Marcin Bialoblocki (CCC Sprandi Polkowice), Pavel Brutt (Gazprom-Rusvelo), Daniel Teklehaimanot (Dimension Data) and Eugert Zhupa (Wilier Selle Italia) already have a lead of 1:20 over the peloton.

Charles Davis oops to slow

05-05 06:55

BusterSci Missed by THAT much.

05-05 06:56

Charles Davis no one on my fantasy team but I did think about Pavel Brutt and Daniel

05-05 06:57

Teklehaimanot

BusterSci I had Brutt on the team at one point. I think I removed him. I changed my

05-05 06:58

picks about a half dozen times as I read more about the teams coming and their stated ambitions.

Charles Davis Seeing lots of shots of Sardinia on Fubo. Very pretty.

05-05 06:58

BusterSci That's the part I miss the most not having a video feed. The internet at my

05-05 06:59

client is just too slow to support video.

 **Charles Davis** That is my problem. The latest thing I read, influences me to much. 05-05 06:59

 **Charles Davis** Current shot is of a beautiful woman on her phone. lol 05-05 07:00

 **BusterSci** Yes. The latest thing I read influences me too much. 05-05 07:00

 **BusterSci** Absent beautiful women, I'll look at my phone. 05-05 07:01

 **Charles Davis** All four wildcard teams have someone in the break. Good for them. 05-05 07:04

 **BusterSci** And one of the wildcard teams has two riders out of the race! What's a Grand Tour without doping violations? 05-05 07:05

 **Charles Davis** Yep. Their director has had several experiences with doping through the years. He sounds broken up about it but what else would he say. 05-05 07:06

 **Charles Davis** Seeing the team presentation highlights now. Great picture. The feed looks way better than the bootlegs I usually watch. 05-05 07:07

 **Tim in Ky** Somewhere there is a bike race. Just not on Fubo yet. 05-05 07:10

 **Charles Davis** Tim thanks for the maps and pre-race stuff that you put up. 05-05 07:11

 **Charles Davis** Alghero is a very nice looking town. 05-05 07:12

 **Tim in Ky** Very picturesque. 05-05 07:14

 **Charles Davis** Who are the sprinters? Greipel, Ewan, Nizzolo, Modolo, Gaveria, 05-05 07:20

 **Charles Davis** I see a race. 05-05 07:20

 **Charles Davis** Big crowds in the city, lots of people on the overpasses on the highway, and in general lots of people watching. 05-05 07:24

BusterSci Got 10 minutes to check in. 7 minutes for the break. Afternoon, Donny! 05-05 07:36

donny Teklehaimanot everyone! Can that be our official greeting from now on, Please? 05-05 07:37

Forgot how much I loved that name. Are we ready for some Giro?

BusterSci I'm just trying to remember how to spell that "Crosswalk" guy's name. 05-05 07:38

donny Sardinia really is a beautiful island. I have been fortunate enough to travel all 05-05 07:39

around it on several occasions. Once, unfortunately, in August. My advice, stay away from any water area in Italy in August, this includes lakes, streams, seas, and fountains.

donny Buster, I shall copy and paste all the odd names as three weeks is not long 05-05 07:40

enough for my feeble mind to learn how to spell them.

Charles Davis The pictures on FuboTv are great but for now it is just pictures and 05-05 07:41

occasional sounds from riders or people in cars, and of course, helicopters. Basically ambient noise.

Charles Davis 157 to go and 6:07 for the leaders 05-05 07:43

Tim in Ky I have commentary of Fubo. 05-05 07:50

donny considering some of the commentary for cycling races, ambient noises may be 05-05 07:50

best. No?

Tim in Ky Fubo has the Eurosport guys. 05-05 07:51

donny sweet! which Eurosport guys??? 05-05 07:56

Tim in Ky Don't know. 05-05 07:57

Tim in Ky With 148km to go, gap is 5:00. 05-05 08:00

donny I hear the one and only Sean Kelly, 05-05 08:00

donny Zee Germans are advertising that cycling is on but, they are showing a different 05-05 08:03

type of 2 wheeled craziness

 **Tim in Ky** The peloton looks all strung out but they're only doing 40km/hr.

05-05 08:06

 **donny** I thought they got rid of the 2 guys that were strung out before the Giro started?

05-05 08:07

 **Tim in Ky** I don't think HGH strings one out.

05-05 08:08

 **donny** I would not know Tim. All I know is "Drugs are bad, em'kay"

05-05 08:13

 **Charles Davis** On Fubo, Carlton Kirby and Pete ? are the announcers.

05-05 08:14

 **Charles Davis** Attack off the front.

05-05 08:14

 **BusterSci** I don't believe I've ever taken HGH or HGH producing peptides, but if I did

05-05 08:15

they affected my gut an inordinate amount and the rest of me almost not at all.

 **donny** Craziest drug news I have heard is that the UCI was considering and is indeed

05-05 08:19

researching the need to ban Caffeine. Of course this story came out just about the 1st of April so.....

 **BusterSci** Cyclists without caffeine? May as well ban fuel in NASCAR while you're at

05-05 08:21

it.

 **Charles Davis** first mt points 1.Cesare Benedetti (Bora-Hansgrohe) 2. Eugert Zhupa

05-05 08:21

(Wilier Selle Italia) 3. someone else

 **Mons Soseman** Hey everyone

05-05 08:22

 **Charles Davis** Good day, Mons.

05-05 08:22

 **donny** I have a feeling if that story were true Buster Trek team would have a shorter

05-05 08:22

name

 **Mons Soseman** Happy Giromese

05-05 08:23

	BusterSci How's life on the mainland, Mons?	05-05 08:23
	donny Teklehaimanot! Mons Happy to see you here!	05-05 08:23
	Mons Soseman Trying to prepare a teflon, error proof essay, which may escape comment. ;)	05-05 08:24
	donny I love the ambition Mons	05-05 08:24
	Tim in Ky That sure didn't look like a categorized climb.	05-05 08:24
	Mons Soseman Caffeine has LONG been on the WADA list of banned substances	05-05 08:24
	donny How is the prep for the Swiss Guard going?	05-05 08:24
	Mons Soseman Good	05-05 08:25
	donny "Caffeine has LONG been on the WADA list of banned substances" Mons, Really?	05-05 08:25
	Mons Soseman Their annual Giuramento is tomorrow, so within the Vatican they parade, and take their military oaths. So many Swiss in Rome these days, including, I have heard, the Swiss President.	05-05 08:25
	Mons Soseman If you want, Donny, I have an extra ticket, quite by accident	05-05 08:26
	Tim in Ky Hi, Katie.	05-05 08:26
	BusterSci Hey, we're starting to rock in the pub!	05-05 08:27
	Charles Davis Hello Katie	05-05 08:27
	Tim in Ky Gap has been stable for a while at 4:30.	05-05 08:28

donny Mons, it would be a wonderful honor to get to see you and the swearing in 05-05 08:30

ceremony of the Swiss Guard. Though as I have been here with the family a scant 5 days in the last 60, I better not even ask the boss for a day off.

SFinAusTx Greatings everyone. Ahhhhh, it's GT time and Italy! 05-05 08:32

Katie Buongiorno, tutti! 05-05 08:32

Tim in Ky Pretty scenery but not much going on in the race. 05-05 08:33

Katie Yes, but at least we are in ITALY! 05-05 08:33

donny Teklehaimanot! SFinAusTx and Katie nice to see you here. 05-05 08:34

Tim in Ky I wish they'd get the bug off the Helio camera. 05-05 08:36

Katie So, since they're on Sardinia and since my mom's coming up for dinner, I'm 05-05 08:39
thinking a Sardinian supper. Mons, you have any suggestions for a menu? Or a wine?

SFinAusTx Thanks Donny. It's great to have an Eritrean in the break! 05-05 08:40

Tim in Ky With 122km to go, gap is 4:00. 05-05 08:42

BusterSci Frau Buster is actually in Italy. She's been on a 2 week work trip. Comes 05-05 08:44
home tomorrow evening. Did any of you catch her photos on Facebook from the Musee du Velo in
Tournus?

Mons Soseman Oh, a Sardinian Supper would be great, as they have great food. 05-05 08:44

Mons Soseman Goat cheese is always a staple. I don't do seafood, but along the coast 05-05 08:45
they would do seafood.

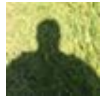

Mons Soseman Mostly they eat meat in the non seafaring villages. That sounds funny 05-05 08:46
to us, but in Italy if you are more than half an hour from the sea, the seafood is not good.

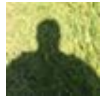

Mons Soseman My favorite part of Sardinian cooking is the full vegetables they bring 05-05 08:47

to the table at the end, carrots, celery, and other crudites. Of course these are peeled, but still whole, and then presented with

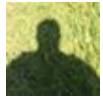

Mons Soseman salted olive oil.

05-05 08:47

Mons Soseman num

05-05 08:47

Mons Soseman so these are served raw. the rest of Italians do not really eat raw

05-05 08:48

vegetables, infact they cook vegetables to within an inch of life. :)

Mons Soseman Does that help Katie?

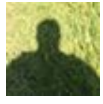

05-05 08:48

Mons Soseman Oh, I had a Sardinian style pizza last week in Pisa, but Sardinian

05-05 08:49

restaurant

Mons Soseman It had spicy sausage, tomato sauce, goat cheese.

05-05 08:49

BusterSci I was probably 30 years old before I learned that Crudites weren't things

05-05 08:51

that lived in crud.

Katie Great ideas, Mons.

05-05 08:53

Katie thanks!

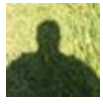

05-05 08:53

Katie i have some beets in the garden adn some recently harvested purple carrots

05-05 08:54

(word to the wise: Don't use purple carrots in a soup stock. it looks like dirty dish water)

Mons Soseman //rumbletalk-images-

05-05 08:55

Katie dang, Teklehaimanot came so close to that...

05-05 08:56

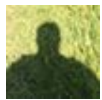

Mons Soseman Does that work for everyone?

05-05 08:56

BusterSci It's readable.

05-05 08:56

Mons Soseman From you, BusterSci, I take that as high comedy. Um I mean high

05-05 08:57

compliment, even if you are limiting yourself to comment on the technical aspects. ;)

donny You take what you can get from the Penguin Poet eh mons?

05-05 08:58

Katie Thank you, Mons. Great history and context and story.

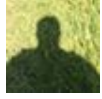

05-05 08:58

BusterSci Now I wish I had intended it as damning with faint praise. I was just trying

05-05 08:59

to confirm that the text wasn't too small to make out for old eyes like mine.

Mons Soseman I always take any compliment as a grand compliment from his

05-05 09:00

Penguiness.

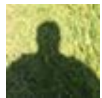

Mons Soseman So right now I have 110. km to go can we gauge the time lag?

05-05 09:01

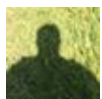

Charles Davis Carlton Kirby and Daniel Lloyd are the commentators on EuroSport.

05-05 09:02

Mons Soseman If you are watching the geography of Sardinia is fascinating

05-05 09:08

Mons Soseman Remember that Summer when I wrote so many essays on languages?

05-05 09:13

Sardinia is like a haven for language..

BusterSci They're setting no record pace today.

05-05 09:20

Tim in Ky The peloton just passed the halfway point. Long day.

05-05 09:20

Katie Why so many languages in Sardinia? Because it's the floating raft in waters

05-05 09:24

touched by so many other places?

Tim in Ky Kirby commenting on how crazy the finish is.

05-05 09:28

Gilliemarie What happened to the penguin Buster?

05-05 09:28

BusterSci What penguin? And Tim, Kirby talking about anything being crazy is the 05-05 09:29

very definition of the pot calling the kettle black.

Tim in Ky Gap is under 3:00. Still 92km to go. 05-05 09:30

Gilliemarie Your usual avatar Buster 05-05 09:30

Charles Davis Here are the top sprinters - Greipel, Ewan, Gavaria, then Modolo, and 05-05 09:31

Nizzolo. Anyone else to watch?

BusterSci This is my usual avatar. Are you not seeing the oil-soaked penguin? 05-05 09:31

Gilliemarie Nope! 05-05 09:31

Charles Davis GM, it looks normal to me. 05-05 09:31

BusterSci I did switch avatars a number of times for specific races in the past, but this 05-05 09:32

is the standard.

Katie I see Dean Martin after a particularly bad and long night, what do the rest of you 05-05 09:32

see?

Gilliemarie I'm seeing a pale blue circle with a darker blue head & shoulders! 05-05 09:33

BusterSci I am wearing a blue t-shirt from the Loggerhead Marinelife Center in Juno 05-05 09:35

Beach, CA. But my head is not blue. Wait. I'll hold my breath for fifteen minutes. That oughta do it.

Tim in Ky I see the usual penguin. 05-05 09:36

BusterSci Everybody loves some herring sometime 05-05 09:40

Tim in Ky Gap is under 3:30 with 85km to go. 05-05 09:44

Tim in Ky This stretch of road looks like it was paved yesterday. 05-05 09:52

BusterSci Thats a perk of hosting stages.

05-05 09:55

Tim in Ky Gap is down to 2:42.

05-05 09:58

Tim in Ky Orica has taken over the point from QS.

05-05 09:59

Mons Soseman So was the forth with anyone yesterday? Anyone celebrating Cinco de

05-05 10:01

Mayo?

SFinAusTx If I get my password recovered/reset then I should update my avatar. I

05-05 10:02

never meant to be rude showing you all the back of my helmet. I'm just shy.

Tim in Ky I know who's not celebrating Cinco de Mayo, Mexicans. It an invention of

05-05 10:03

American beer companies.

Gilliemarie Guess u need to email Joanna SF

05-05 10:03

Charles Davis I am celebrating Cinco de Mayo today and the Kentucky Derby

05-05 10:05

tomorrow.

BusterSci Tim, that's not totally true. Cinco de Mayo is a legit Mexican holiday, it just

05-05 10:05

isn't a party day there.

Tim in Ky Going to be a cold rainy Derby this year.

05-05 10:05

SFinAusTx My stoker contemplated just being in L-ville this year for the Derby

05-05 10:07

weekend just to soak up the atmosphere, but the lodging anywhere was prohibitive. So we're watching it here while see runs a family betting ring.

BusterSci SF, is "My stoker" a typo/spell check fiasco or is it some term the kids use

05-05 10:09

that I'm to old to know?

Katie 2x Kelly Unit (tm) left!

05-05 10:14

BusterSci SF in AusTx. Just shortening to SF.

05-05 10:15

donny 66km to go with 2:09

05-05 10:15

donny Buster, Legit Q(question) my web footed friend whats THE A(answer) SF

05-05 10:16

Mons Soseman I have been to Churchill Downs, not on Derby day. It was beautiful

05-05 10:16

Mons Soseman So, is anyone else watching the Giro via RAI (available on Dish

05-05 10:17

Network in USA)

Mons Soseman I have the RAI HD coverage on. I would like to say how beautifully

05-05 10:17

splendid it is, but it really is just slightly better than normal

donny I have downed a few glasses of of the Pol Roger Champagne that bear the name

05-05 10:19

Churchill. Sadly, never been to Churchill Downs on Derby day or any other.

Katie I'd love to get RAI, but i don't dish, and every time i try to sneak into RAI

05-05 10:20

online, I get scolded with a "siamo spiacenti" ... they're so sorry but ...

BusterSci I read "the Last Lion", a definitive Churchill biography.

05-05 10:20

Katie uh.....

05-05 10:21

BusterSci My pillow is down.

05-05 10:25

BusterSci Anyone wear a derby?

05-05 10:25

Tim in Ky 15 people in the pub now. Don't tell the fire marshall.

05-05 10:31

donny Lost of in and out, I am sure we could talk our way out of any fire marshall

05-05 10:32

issues

Marc @Toad Hall Thanks, Mons. Your essay was bullet-proof. Love the NRRBBB,

05-05 10:33

but please mention the race now and again. I've only a spotty link to bootleg RAI, and have no Italian. And yes, there is such a language as Luxembougish. How would I know without Wikipedia? I'm from Gibberland.

Gilliemarie I guess there is nothing going on in the race?

05-05 10:34

Tim in Ky Marc, there's a break of five 2:10 ahead of the peloton with 52km to go.

05-05 10:35

Tim in Ky Paint drying, Gillie.

05-05 10:35

Charles Davis I have been to Churchill Downs 3 or 4 times, including one Derby. The

05-05 10:35

track and museum and stuff are much nicer on the non-derby weekend. I think I saw some horses through the crowd at the Derby.

Gilliemarie Hope the rest of the race is a little more rxciting!

05-05 10:36

BusterSci I normally try to inject race commentary but I'm really unable today. I'm

05-05 10:36

dancing between chemically processing some amniotic tissue, reviewing essential requirements of an international standard, listening to this week's Economist and making stupid comments here. I have no livestream.

Charles Davis This is a great month to be in Louisville though. Small festivals and

05-05 10:36

fairs throughout the city all month long.

Charles Davis Some dudes are out front and everyone is following. You are missing

05-05 10:38

nothing except those little sprints for mountain and sprint points.

Charles Davis Mons, evidently none of us have Dish.

05-05 10:39

Gilliemarie Yeah & i'll bet some dude wins the stage!

05-05 10:39

donny there are now less km's to go and about the same distance from break to bunch.

05-05 10:42

Charles Davis My daughter just brought me a "heart" shaped piece of bread and said "

05-05 10:42

This heart is for you Daddy." She is a keeper.

Gilliemarie :-:*

05-05 10:43

BusterSci I'm assuming Franco is still dead?

05-05 10:43

Tim in Ky He is. But in Spain.

05-05 10:45

BusterSci So, he's alive here?

05-05 10:45

Katie Wow, that is some pretty landscaping

05-05 10:45

Tim in Ky 40km to go. Gap is 2:13.

05-05 10:54

BusterSci Mons, Frau is now watching on RAI. So you have company.

05-05 10:56

Tim in Ky Gap is under 2:00 now.

05-05 10:59

Mons Soseman Hey Frau

05-05 10:59

David Stanley My chemistry kids (10th graders) just started a test. Thought I'd pop in 05-05 10:59

and say Buon Giorno!

Mons Soseman The progress is slower than expected today. There are still 36 km to 05-05 10:59

go, a little more than one KU

Gilliemarie We must be getting close to the last Kelly Unit ?

05-05 10:59

Katie Hi David, welcome ... perhaps you should do a chemistry unit on the impact of 05-05 11:01

perspiration on lycra or some such ... merge two passions

Tim in Ky Kelly Unit to go for the break.

05-05 11:03

David Stanley I do try to use bicycles and wheels and such in physics. I brought in my 05-05 11:03

bike and rollers to demonstrate the stability that spin imparts to a wheel. In Bio, the kids get a big dose of bicycle based exercise science in the physiology unit. Gotta make things fun and engaging for everyone. Textbooks are boring.

BusterSci Perspiration: Major components are salts, lactic acid and urea. A medical 05-05 11:04

device I worked on years ago had a component worn against the body. We'd get broken units back that were massively gross with sweat. The urea was the culprit, both in the grossness and the product failure.

Katie Excellent. I wish you'd been my science teacher

05-05 11:04

Katie both y'all

05-05 11:04

Katie Tekla'not gets the sprint

05-05 11:05

BusterSci T-not. I'm going with T-not.

05-05 11:06

Katie Why-not, then? OK!

05-05 11:07

David Stanley That's a tidbit I'm storing away, BusterSci. Thanks. The sciences are

05-05 11:08

really fun classes to teach and take if you have teachers who are engaged. I had a great physics prof - ever lecture, he'd have a noted classical music piece playing as he entered the lecture hall. He always used the time or the place or something about the music as his jumping off point for the lecture.

BusterSci My college degree was in Integrated Sciences. It was a truly

05-05 11:11

multidisciplinary program in science and math. The capstone course was "Mathematical aspects of physical biochemistry." Getting a core education in everything from astrophysics to molecular biology was awesome, and I've actually used much of my education in my career. That's where the "Sci" comes from.

Tim in Ky It looks like they will be ~20 minutes slower than the slowest expected

05-05 11:13

time.

David Stanley My B.Sc was a similar program - Integrative Bio - everything from

05-05 11:14

histology to chordate morphology. I'm currently an astrophysics junkie - doing lots of reading in that area.

Katie Oooh! A hil!

05-05 11:15

Katie 1

05-05 11:15

Katie two Ls

05-05 11:15

Katie it's 12% ... they have have two Ls

05-05 11:15

David Stanley I'm following twitter updates. The main field is altogether? Wondering

05-05 11:16

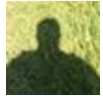

about my boy Sam Bennett in the finale.

Mons Soseman So did we get that there are 5 in the lead group, leading by over a minute. 05-05 11:16

Tim in Ky Kirby says the descent of the last climb is quite technical. 05-05 11:17

Mons Soseman The "live site" I found from the Giro says they are ahead by 1:56, Eurosport says 1:08 05-05 11:17

BusterSci Sam has as good a chance as any of the sprinters. Greipel obviously has the experience. Ewan and Gaveria are probably to two fastest dead out. Then the others are there, all with a chance. 05-05 11:18

Katie This climb's gotta hurt after all those miles of flats. Smacks you right in the legs. 05-05 11:19

Tim in Ky The climb has shed one of the breakers. 05-05 11:20

David Stanley I suspect this'll be gruppo compatto pretty soon. 05-05 11:22

Tim in Ky They've pulled the team cars from the gap. 05-05 11:23

Gilliemarie Is the break going to be successful or will they get caught as usual? 05-05 11:23

Tim in Ky They're good as caught now. 05-05 11:23

David Stanley If the cars are out of the gap, it's coming back together. 05-05 11:24

Mons Soseman So was that Benedetti taking the KOM Jersey? 05-05 11:24

Tim in Ky Yes. Benedetti leads KOM. 05-05 11:25

Mons Soseman First days are always fun that way. 05-05 11:26

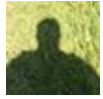

donny I turned my focus to something else for a few min. hear the roar and looked at my watch and thought it would be over. Alas, there is still 20km to go, just the KOM for the day done. Talk about your slow starts to the tour. 05-05 11:26

David Stanley Pretty stoked to see Teklehaimanot riding well. fully enjoyed his

05-05 11:26

exploits in the TdF two years ago.

Mons Soseman They were waiting for you, Donny.

05-05 11:26

donny ha

05-05 11:27

Mons Soseman Does Mgubu know how to find us here at the nut pub?

05-05 11:27

Mons Soseman We should elect an international outreach coordinator. Jesus in Cancun

05-05 11:27

hasn't been around either.

SFinAusTx I'm back. What's the best acronym for "Work Gets in the Way". I suppose

05-05 11:28

"WGW" if we stick with the modern penchant for TLAs (three letter acronym). Buster, going back a while, by "stoker" I was referring to my lovely partner in tandem riding and life. Also, yes SF is fine shorthand. Shawn works too but defeats the short of two letters.

David Stanley Plus, SF in my mind is Stephen F. as in Stephen F Austin so it works on

05-05 11:28

two levels

Gilliemarie That's why they often refer to me as GM

05-05 11:29

SFinAusTx BTW, Gatorade game from a Univ of FL football trainer who analyzed

05-05 11:29

players' sweat to see what to see what needed to be replaced and hence bottled. Enjoy!

Katie Wow, that is some pretty landscaping

05-05 10:45

Tim in Ky 40km to go. Gap is 2:13.

05-05 10:54

BusterSci Mons, Frau is now watching on RAI. So you have company.

05-05 10:56

Tim in Ky Gap is under 2:00 now.

05-05 10:59

Mons Soseman Hey Frau

05-05 10:59

David Stanley My chemistry kids (10th graders) just started a test. Thought I'd pop in 05-05 10:59

and say Buon Giorno!

Mons Soseman The progress is slower than expected today. There are still 36 km to 05-05 10:59

go, a little more than one KU

Gilliemarie We must be getting close to the last Kelly Unit ? 05-05 10:59

Katie Hi David, welcome ... perhaps you should do a chemistry unit on the impact of 05-05 11:01

perspiration on lycra or some such ... merge two passions

Tim in Ky Kelly Unit to go for the break. 05-05 11:03

David Stanley I do try to use bicycles and wheels and such in physics. I brought in my 05-05 11:03

bike and rollers to demonstrate the stability that spin imparts to a wheel. In Bio, the kids get a big dose of bicycle based exercise science in the physiology unit. Gotta make things fun and engaging for everyone. Textbooks are boring.

BusterSci Perspiration: Major components are salts, lactic acid and urea. A medical 05-05 11:04

device I worked on years ago had a component worn against the body. We'd get broken units back that were massively gross with sweat. The urea was the culprit, both in the grossness and the product failure.

Katie Excellent. I wish you'd been my science teacher 05-05 11:04

Katie both y'all 05-05 11:04

Katie Tekla'not gets the sprint 05-05 11:05

BusterSci T-not. I'm going with T-not. 05-05 11:06

Katie Why-not, then? OK! 05-05 11:07

David Stanley That's a tidbit I'm storing away, BusterSci. Thanks. The sciences are 05-05 11:08

really fun classes to teach and take if you have teachers who are engaged. I had a great physics prof - ever lecture, he'd have a noted classical music piece playing as he entered the lecture hall. He always used the time or the place or something about the music as his jumping off point for the lecture.

BusterSci My college degree was in Integrated Sciences. It was a truly

05-05 11:11

multidisciplinary program in science and math. The capstone course was "Mathematical aspects of physical biochemistry." Getting a core education in everything from astrophysics to molecular biology was awesome, and I've actually used much of my education in my career. That's where the "Sci" comes from.

Tim in Ky It looks like they will be ~20 minutes slower than the slowest expected

05-05 11:13

time.

David Stanley My B.Sc was a similar program - Integrative Bio - everything from

05-05 11:14

histology to chordate morphology. I'm currently an astrophysics junkie - doing lots of reading in that area.

Katie Oooh! A hil!

05-05 11:15

David Stanley And for those outside the college football scene, University of Florida's 05-05 11:31

nickname is the Gators.

Tim in Ky Benedetti is just the third rider to win the first three climbs of a Giro. 05-05 11:32

05-05 11:44

05-05 11:45

05-05 11:45

BusterSci Let's hope the big names were up front and avoided it

05-05 11:46

donny Race organizer in the Giro strike again to shake up the race

05-05 11:46

05-05 11:46

05-05 11:46

Tim in Ky Red kite! 05-05 11:47

Mons Soseman Who is that escaper? 05-05 11:47

SFinAusTx GO go go 05-05 11:47

Mons Soseman Lukas what? 05-05 11:48

David Stanley Lukas Postlberger (Bora-Hansgrohe) leads into the final kilometre with 05-05 11:48

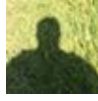

a small gap over the peloton. Can he spring a surprise?

BusterSci Hey, no CN copying. 05-05 11:48

SFinAusTx Whoa!! Chills after such a long Valspar-ish day 05-05 11:48

Mons Soseman what a great finish 05-05 11:48
