

**Tim in Ky** Wednesday's stage 5 is 159 km up the east coast of Sicily. The first 100 km 05-09 15:40

are quite lumpy but there is only one rated climb, a Cat 4.

**Tim in Ky** The last 59 km are right along the coast and flat. Cross winds would not be 05-09 15:42

a surprise.

**Tim in Ky** The finish is two laps of a Giro-typical chamber of horrors. I particularly 05-09 15:45

look forward to the hairpin with about 1400 meters to go.

**Tim in Ky** Stage starts at 13:15 CET (7:15 EDT). Video from the get-go. Supposedly. 05-09 17:26

**BusterSci** There will be no reunion. Kenny Loggins has declined an invitation to be at 05-10 05:59

the finish.

**RSoseman** So, I will hopefully have a pre stage essay, then.

05-10 06:18

**RSoseman** You have aptly described the finish, Tim in Ky...

05-10 06:37

**Tim in Ky** Good morning Mons. Here's what the Giro website says about the rest of 05-10 06:44

the course: "The stage starts from Pedara, new stage town as far as the Giro is concerned. The first 40 km are fairly complex, as the route passes through several urban areas, with roundabouts, traffic dividers, pedestrian islands, setts paving and speed bumps being the main obstacles. Then comes an uphill stretch (Fornazzo KOM summit), followed by a fast-running and technical descent. The roadway narrows at points in Castiglione di Sicilia. Next, the route climbs up Taormina and descends to the feed zone along partly narrowed roads. Here the roadway becomes wider and mostly straight, leading to the final circuit in Messina."

**Tim in Ky** Sounds delightful.

05-10 06:44

**Tim in Ky** Still a half hour until Km 0 and I will be gone by then.

05-10 06:45

**RSoseman** Alas

05-10 06:47

**BusterSci** Are you gone the rest of the day, Tim?

05-10 06:48

**RSoseman** It is great you set things up

05-10 06:48

**Tim in Ky** No, I'll be back 8:30-ish like yesterday. I can't find any updates on Losada. 05-10 06:49

Be interesting if he can start today.

**BusterSci** Ok. I'll leave my other distractions until you get back.

05-10 06:53

**Tim in Ky** Fairly stiff breezes forecast, but more of a tailwind than crosswind right 05-10 07:03

now.

**Tim in Ky** Back later...

05-10 07:09

**BusterSci** Tah. Pre-show on Tiz right now. Looking at the race map and profile.

05-10 07:11

**RSoseman** //rumbletalk-images-

05-10 07:12

upload.s3.amazonaws.com/61922326bc2ef459e5ed5de71ef53a57/1494415014-Stage%205%20gif.jpg

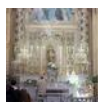

**BusterSci** Mons gives us something to get us through the sign-in and false start.

05-10 07:13

**RSoseman** :)

05-10 07:14

**RSoseman** and now I have to go for a while. Be back in a few

05-10 07:14

**BusterSci** So. Here we are again, Buster

05-10 07:14

**BusterSci** Yeah, other Buster. Here we are.

05-10 07:14

**BusterSci** And they're off.

05-10 07:17

 **BusterSci** Rolling out with the jersey's leading the pack. I really like the points jersey 05-10 07:22

here. That purple looks good on Greipel.

 **BusterSci** Rolling through the streets here following the lead car. 05-10 07:23

 **BusterSci** Picking up a bit of speed 05-10 07:23

 **BusterSci** Greipel getting a free ride behind the pace car. 05-10 07:24

 **BusterSci** And they're off! 05-10 07:24

 **BusterSci** No attacks yet. 05-10 07:24

 **BusterSci** Spoke too soon. A Gazprom and CCC rider go 05-10 07:25

 **BusterSci** Nobody trying to get across yet. 05-10 07:25

 **BusterSci** Paterski (CCC) and Shalunov (GAZ) look like our early break 05-10 07:27

 **BusterSci** Shalunov occasionally having a difficult time holding Paterski's wheel. But 05-10 07:28

now they're working together.

 **BusterSci** The bunch has settled in and appears uninterested in chasing. 05-10 07:29

 **BusterSci** 1:43 the gap 05-10 07:32

 **BusterSci** 2:09 as they wind through narrow city streets. 05-10 07:34

 **BusterSci** To add to Mons' essay, go out and find yourself any Nero d'Avolo wine from 05-10 07:37

Sicily. They've become quite available in the US and good bottles can be had at nearly any price point. Not a specifically Etna wine, it is still the most important red grape from Sicily.,

 **BusterSci** Donnafugata is a large Sicilian wine producer and makes lovely and widely 05-10 07:40

available reds and whites at multiple price points. Their Ben Rye is a delicious dessert wine. They're from the western part of the island (Marsala.)

 **BusterSci** I've also enjoyed Passopisciaro wines, but they're harder to come by. Graci 05-10 07:43

and I Custodi are good Etna wines, and Occhipinti is one of the hottest Sicilian wines, being all biodynamic and organic and checking many other important marketing boxes.

 **BusterSci** 3:06 the gap, 143km to go. 05-10 07:43

 **BusterSci** Meanwhile, I'm still here, writing about drinking alone. 05-10 07:47

 **BusterSci** No, Buster! I'm still here with you. 05-10 07:47

 **BusterSci** Thanks for that, other Buster. 05-10 07:48

 **BusterSci** 3:53 at 140km 05-10 07:48

 **BusterSci** Mons, do you think the Vikings were right to cut ties with Peterson? 05-10 07:50

 **BusterSci** Gap is back down to 3:25 as the two riders in the break are climbing. I think 05-10 07:52  
we aren't going to see it get beyond 4 minutes.

 **BusterSci** As the gap climbs to 4:02 05-10 07:53

 **BusterSci** We're settled in at 4 minutes, +/- 5 seconds for the gap. 05-10 07:55

 **Rob** Afternoon, so can the breakaway stay away today? 05-10 07:58

 **BusterSci** I doubt it. After these early climbs I think there is more than enough time 05-10 07:59  
for the sprinters' teams to pull it all together.

 **BusterSci** 4:17 at 129.1km 05-10 08:07

 **BusterSci** They call Greipel the Gorilla but by personality he's a cuddly little duckling. 05-10 08:14  
Just saw an interview with him that did nothing to refute claims that he's one of the nicest guys in the peloton.

 **BusterSci** I had to rephrase that last post because RumbleTalk thought it was 05-10 08:14

offensive.

**Charles Davis** Hello All

05-10 08:15

**BusterSci** Hi, Charles and Katie. Welcome aboard.

05-10 08:16

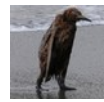

**BusterSci** Paterski (CCC) and Shalunov (GAZ) lead by 4:06 at 124.5km

05-10 08:16

**Katie** Good morning!

05-10 08:17

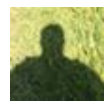

**BusterSci** I think this one is going to be a sleeper until the last 20km or so.

05-10 08:19

**Charles Davis** Speaking of the last 20 km or so, I watched the replay of stage 1 of the 05-10 08:27

4 Days of Dunkirk. The whole pack was together in a tight mass and at about 20 to go someone fell about a third of the way back. Guys fell left and right from the middle. It was a mess. About 40 riders were ahead of it and they kept going. By 15 km there was another group of 40 about 33 sec behind and a third group of similar size about 52 secs behind. There were probably others stragglers and injured along the way but there was no sound so That was all I saw. Jens Debusschere won from a slightly smaller pack.

**Mons Soseman** The Vikings cut ties with Peterson? Ah, how much we miss being 05-10 08:34

over here. WE get cycling results two minutes ahead of time, and then the soccer news. Frankly BSci, with the new QB going in different directions, AP, who I have always really liked, was not being utilized nor did he contribute.

**Tim in Ky** Back and catching up. I agree with Buster, now that the only rated climb is 05-10 08:34

done it's going to be drying paint until they reach the chamber of horrors.

**Mons Soseman** Perhaps we could catch up on our essay reading? ;) 05-10 08:35

**Katie** Who is this Peterson you speak of and why would the 8th century adventurers 05-10 08:36

and warriors want to cut ties with him? Could he not row? Could he not grow a lofty beard? Was he a vegan and would not wear the horned helmet?

**Charles Davis** Good questions, Katie. 05-10 08:37

**Mons Soseman** Actually, toward the end of writing that, someone had given me 05-10 08:37

tequila laced chocolates, so perhaps I went on a bit too much about food. It reminded me of recovering alcoholic Doris on "Dead Like Me." When they were scandalized that the bachelor next door was giving

liquor chocolate for trick or treat, she exclaimed "Liquor chocolates were my gateway candy."

**Charles Davis** Good essay, Mons. I am happy to learn anything that you want to offer. 05-10 08:38

**BusterSci** Mons, Peterson was signed by the Saints, who just happen to be the Vikings'05-10 08:39

first opponent this year.

**Mons Soseman** I think, Katie, that the "son" ending to his name indicates he is of 05-10 08:39

Swedish background, and the Vikings were Norwegian, whose names end in "-sen"

**Mons Soseman** hence the conflict 05-10 08:39

**Charles Davis** e it. 05-10 08:39

**Mons Soseman** Ah, the weepy Saints. 05-10 08:39

**Charles Davis** Sorry, That must be it. 05-10 08:40

**Mons Soseman** worse than Cubs fans... 05-10 08:40

**Mons Soseman** Oh, excuse me while I become officially neutral again. :) 05-10 08:40

**BusterSci** And Katie, I'd replace him with Uhtred, son of Uhtred. Uhtred of 05-10 08:40

Bebbanburg, scourge of the Saxons.

**Tim in Ky** Kirby just said Losada had a dislocated shoulder that was reduced in the 05-10 08:40

medical van so he could finish. And he started today.

**Charles Davis** Good on him. 05-10 08:41

**Katie** excellent, I would agree with that decision, Buster 05-10 08:41

**Charles Davis** what does everyone think about Javier Moreno getting kicked out. 05-10 08:42

Seemed very reasonable to me.

**BusterSci** Gotta be done. Now get rid of the Bardiani team.

05-10 08:43

**Katie** Yeah, that was a pretty stupid move. I know these guys get agitated, irritated and tired but still...

05-10 08:43

**Charles Davis** That is what I thought

05-10 08:43

**Katie** Someone needs to post the the post-race slap-fest between the two riders a few years back ... that was just silly

05-10 08:43

**BusterSci** Moreno says he got pushed first but it wasn't caught on camera. It didn't seem to me he was excusing himself, just pointing out what we all know--there are two sides to every story.

05-10 08:44

**BusterSci** Those two sides are the facts and the alternative facts.

05-10 08:44

**Charles Davis** What happened early in the break yesterday? Seems like 2 of the riders had a disagreement but I did not see anything about it.

05-10 08:45

**BusterSci** That's more than I know.

05-10 08:45

**Tim in Ky** Mons, how wide is the Strait of Messina and what are the engineering challenges to bridging it?

05-10 08:46

**Charles Davis** Kirby was talking about something that happened but that they had continued to work together. So one of those kind of deals.

05-10 08:46

**Charles Davis** 3 km at the narrowest point

05-10 08:47

**Katie** Gotta scoot, duty calls. I hope to check in for the finish. Carry on, etc. etc. etc.

05-10 08:48

**Charles Davis** bye

05-10 08:48

**BusterSci** <https://youtu.be/IK5saxGib7o>

05-10 08:48

**BusterSci** Bridging Messina: It would be 3 times longer than the next largest

05-10 08:51

suspension bridge. It would cost a lot. it's in a very active area seismically. Finally, they've been unable to raise the protection money.

**Tim in Ky** The argy bargy Kirby was referring was between to breakers on the Cat 2

05-10 08:53

climb yesterday. I can't get the video link to copy from Steephil

05-10 08:54

Giro\_35\_09024216-974140-2300-1024-576.mp4

**Tim in Ky** 99 km to go, 3:31 the gap.

05-10 08:54

**Mons Soseman** Very good, BusterSci. Also, the most recent plan was that it would

05-10 08:55

have to be the tallest bridge ever.

**BusterSci** Nice bridge you have there. Shame if something would happen to it.

05-10 08:55

**Mons Soseman** The wind is also terrible, and we don't need no more galloping Gertie. 05-10 08:56

**BusterSci** Seismic activity aside, the biggest issue common to all suspension bridges 05-10 08:58

is wind resistance, as Mons points out. Gertie did what she did due to the winds being able to push the span into a resonance that fed on itself. Even without a resonance, suspension bridges are conceived to overcome the force of gravity. A span as long as would be needed for Messina would have significant lateral forces and it would be incredibly difficult to counter them.

**Tim in Ky** Lotto S and Orica on point. For their sprinters.

05-10 08:59

**Charles Davis** Thanks for the info on the bridge and the argy bargy

05-10 09:02

**Tim in Ky** T-not on bottle duty today. This is the first stage DDD hasn't had a man in

05-10 09:02

the break.

**Tim in Ky** If you need more stage humor than the finish provides, note the the first

05-10 09:05

intermediate sprint comes at the top of a small mountain.

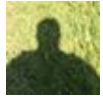

**BusterSci** It was 10 years ago when the I35 bridge on the north side of downtown

05-10 09:06

Minneapolis collapsed. That wasn't a suspension bridge, but it WAS my way home every night. I spent

many minutes each weeknight bouncing up and down in stop and go traffic, wondering if the bridge was safe. The evening it collapsed I just happened to be on a plane, returning from a supplier audit. But for that coincidence it would have been very likely that I would have been on or near the bridge when it fell. Being a total dork, I researched bridges a lot after that.

**Mons Soseman** that was terrible. That bridge in that KC hotel was also terrible. I 05-10 09:11

stayed there once, after it happened.

**BusterSci** on the Tiz feed, Kelly just explained the argy and the bargy from yesterday 05-10 09:13

and said he totally agreed with booting Moreno. Bridges were not mentioned.

**Tim in Ky** Bahrain on point now. 05-10 09:16

**Tim in Ky** Gap is 2:50. 05-10 09:16

**BusterSci** Now Kelly is talking about riding up Etna as an old man, since he never got 05-10 09:17

the chance as a pro cyclist. He seemed to have a real reverence for the experience. I'd expect him to be rather jaded but it was nothing of the sort.

**Tim in Ky** Apparently Bahrain wasn't riding fast enough for Orica. 05-10 09:19

**Tim in Ky** Greipel back at the team car. 05-10 09:21

**BusterSci** Which plays right into Bahrain's plans. Let the teams with a sprinter pull. 05-10 09:21

**Tim in Ky** Greipel is hauling bidons. 05-10 09:23

**Tim in Ky** 76 km 2:42. 05-10 09:24

**BusterSci** Quintana has a mechanical and is being helped back to the pack 05-10 09:31

**Tim in Ky** Just one helper. Curious. 05-10 09:31

**Tim in Ky** Back in the bunch. 05-10 09:32

**BusterSci** I suspect things are pretty calm in the bunch so there was no need to panic. 05-10 09:33

**David Stanley** Just have a moment to pop in and say hi. Big day yesterday, I had a 05-10 09:33

couple of meetings and was following the text updates on the sly. I felt like I was a 9th grader.

**BusterSci** I hope to grow up someday myself. 05-10 09:34

**BusterSci** Or not. 05-10 09:34

**Tim in Ky** Peloton in the feedzone. 05-10 09:38

**David Stanley** My students have a test in their Pre-Calc class next hour. They've all 05-10 09:39

promised to electronically submit their assignment for me by 7 pm if I'll allow them to review for the test. So I have a kid at the whiteboard explaining partial fractions. They're good kids. It's nice.

**Tim in Ky** Anybody know why Jungels is OTB? 05-10 09:40

**BusterSci** CN suggests he took special care getting his musette. 05-10 09:41

**David Stanley** Looks like he took it easy on the way down. Why, I can't tell. I'll check 05-10 09:42

my twitter feed

**Tim in Ky** He was already OTB when he reached the feedzone. 05-10 09:42

**David Stanley** Nothing on Twitter that I can find. Shrug. 05-10 09:43

**Tim in Ky** Peloton is riding north on the coast now. 05-10 09:43

**David Stanley** I watched the Etna stage yesterday evening. Has anyone been there? 05-10 09:44

Looked amazing.

**Tim in Ky** Break is on that little climb to the sprint. 05-10 09:44

**Tim in Ky** Jungels is back near the front and QS is on point. 05-10 09:47

**BusterSci** Maybe there was a bungle in the Jungels. That's alright by me. 05-10 09:47

**David Stanley** well-played, BusterSci. Well-played. Back to work. Enjoy the morning, 05-10 09:48

all.

**Tim in Ky** 60 km to go. 3:30 the gap.

05-10 09:50

**Tim in Ky** The breakl has crossed the sprint point. There are still points for the next

05-10 09:51

six riders.

**BusterSci** The next intermediate sprint awards bonus seconds as well as points. 15km

05-10 09:55

or so.

**Tim in Ky** I hate bonus seconds.

05-10 10:01

**Charles Davis** Missed a few moments. Paying bills, yuck.

05-10 10:01

**Charles Davis** Kirby and Lloyd are babbling. No dead air here.

05-10 10:02

**Tim in Ky** Brain-dead air is what.

05-10 10:04

**Tim in Ky** 50 km 3:20.

05-10 10:05

**BusterSci** Is it just me or is this type of stage profile dull almost be default?

05-10 10:11

**Tim in Ky** At the second sprint the break is at the expected time.

05-10 10:12

**Tim in Ky** Stage like this have to be dull until the finish.

05-10 10:12

**Tim in Ky** Actually that was the 45 km banner.

05-10 10:14

**BusterSci** Nice bridge you have there. Shame if something would happen to it.

05-10 08:55

 **Tim in Ky** The breakl has crossed the sprint point. There are still points for the next 05-10 09:51  
six riders.

 **BusterSci** The next intermediate sprint awards bonus seconds as well as points. 15km 05-10 09:55  
or so.

 **Tim in Ky** I hate bonus seconds. 05-10 10:01

 **Charles Davis** Missed a few moments. Paying bills, yuck. 05-10 10:01

 **Charles Davis** Kirby and Lloyd are babbling. No dead air here. 05-10 10:02

 **Tim in Ky** Brain-dead air is what. 05-10 10:04

**Tim in Ky** 50 km 3:20.

05-10 10:05

**BusterSci** Is it just me or is this type of stage profile dull almost be default?

05-10 10:11

**Tim in Ky** At the second sprint the break is at the expected time.

05-10 10:12

**Tim in Ky** Stage like this have to be dull until the finish.

05-10 10:12

**Tim in Ky** Actually that was the 45 km banner.

05-10 10:14

**Tim in Ky** Now the sprint point.

05-10 10:19

**Tim in Ky** Mechanical for Alafaci. He gets a new bike.

05-10 10:20

**BusterSci** And Ferrari.

05-10 10:21

**Tim in Ky** Peloton goes through the second sprint point down 2:22 and just a bit ahead of the slowest expected time.

05-10 10:22

**BusterSci** Ferrari gets a new bike too. Not Alafaci gets a new bike and a Ferrari.

05-10 10:22

**Tim in Ky** Ferrari also got a dose of the magic wrench.

05-10 10:23

**Tim in Ky** 1 KU to go.

05-10 10:25

**Tim in Ky** 2:14 the gap.

05-10 10:25

**Tim in Ky** 30 km, 1:50.

05-10 10:28

**Rob** Ferrari, didnt he cause a big pile up a few years back?

05-10 10:29

**Tim in Ky** I never remember things like that.

05-10 10:30

**Tim in Ky** Meaningless graphic from TV: An Italian has won the satage on May 10 14 05-10 10:32

out of the last 19 races.

**BusterSci** Yup. He took out Cav in 2012.

05-10 10:32

**BusterSci** Taylor Phinney was in pink and Ferrari took him out, too. Not my memory, 05-10 10:33

just searched CN.

**Alison Quarles** It's not over yet isit!?

05-10 10:34

**Tim in Ky** Welcome AliQ.

05-10 10:34

**Gilliemarie** Good morning, looks like i missed some excitement yesterday!

05-10 10:34

**Tim in Ky** 25 km to go.

05-10 10:34

**Tim in Ky** 1:27 the gap.

05-10 10:34

**BusterSci** We're probably 10 minutes from excitement today. The finishing circuit

05-10 10:35

starts around 11km and there will be positioning ahead of that, I suspect.

**Katie** Checking back in, call me clairvoyant, but I'm guessing this break won't stick

05-10 10:35

**BusterSci** Can we just call you Claire? It's shorter.

05-10 10:36

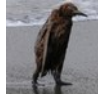

**Tim in Ky** No, Clair, it won't.

05-10 10:36

**Katie** Surely

05-10 10:36

**BusterSci** Not Shirley. Claire.

05-10 10:36

**BusterSci** Peloton under the 25km banner

05-10 10:37

**Tim in Ky** Gap is 1:15. QS doing the heavy lifting now.

05-10 10:38

 **BusterSci** Tim, Tiz has a slow feed today. I leave it to you to make the detailed calls in 05-10 10:39  
the sprint.

 **Charles Davis** Hi again everyone. My kids are pillaging the house. I am trying to 05-10 10:39  
corral them into one room. Wish me luck.

 **Katie** You'll need more than that 05-10 10:40

 **BusterSci** Cookies 05-10 10:40

 **Tim in Ky** A minute at 20 km. 05-10 10:40

 **Tim in Ky** Approaching the chamber of horrors. 05-10 10:41

 **Gilliemarie** Do they do the circuit once or twice? 05-10 10:42

 **BusterSci** About 1.75 05-10 10:42

 **Tim in Ky** The jockeying for position has begun. 05-10 10:43

 **Mons Soseman** It said one lap on the Italian site, but I am not sure what that means 05-10 10:43  
either Gilliemarie

 **BusterSci** They do the 180 turn twice and the finish is the line across the course just 05-10 10:43  
below that.

 **Mons Soseman** Oh fun 05-10 10:44

 **donny** Teklehaimanot folks, Paint has dried on the stage I see. 05-10 10:44

**BusterSci** This

05-10 10:47

**BusterSci** [https://youtu.be/h\\_LdJ67-TCo](https://youtu.be/h_LdJ67-TCo)

05-10 10:47

**Tim in Ky** It's over for the break at 14.5 km.

05-10 10:47

**Tim in Ky** Kirby says 1.66 times around the circuit.

05-10 10:48

**BusterSci** I think being off by .09 is within a reasonable margin of error.

05-10 10:49

**Tim in Ky** On Google maps, the 180 is a very large roundabout.

05-10 10:49

**BusterSci** So it's got a bit of the Champs Elysees about it.

05-10 10:50

**donny** apparently some melting tarmac on a corner. perfect. almost as good a mote in

05-10 10:51

the eye

**BusterSci** With all the GC guys up front you'd think it was a summit finish.

05-10 10:52

**SFinAusTx** I hear the wail off Beloki from the distant pass whenever I read "melting

05-10 10:52

tarmac"

**Tim in Ky** Into the chamber of horrors now.

05-10 10:52

**BusterSci** The image of his bike sliding out from under him never goes away.

05-10 10:52

**Gilliemarie** Just need some feathers to go with the 'melting tarmac'!

05-10 10:54

**Tim in Ky** Orica out front for now.

05-10 10:54

**Tim in Ky** Katusha moving up.

05-10 10:54

**BusterSci** Or cheese. Tarmac and cheese? No?

05-10 10:54

**Tim in Ky** Nice wide road.

05-10 10:54

**Tim in Ky** That 180 was no problem

05-10 10:55

**Tim in Ky** A Bahrain trying to sneak off the front.

05-10 10:56

**donny** this is funny

05-10 10:56

**Katie** Uh oh

05-10 10:56

**donny** wait for it

05-10 10:57

**Tim in Ky** Bell lap.

05-10 10:57

**Tim in Ky** Idiot.

05-10 10:57

**Katie** Bummer

05-10 10:57

**Charles Davis** OOOOps.

05-10 10:57

**Tim in Ky** Kirby and Lloyd having a big laugh.

05-10 10:57

**BusterSci** Hatch and Kelly too

05-10 10:58

**Katie** That's called giggling

05-10 10:58

**Tim in Ky** 5 km to go.

05-10 10:58

**donny** I saw it a couple of min before you guys did and I am still giggling

05-10 10:58

**BusterSci** My suspicion is he will not be taking questions tonight.,

05-10 10:59

**BusterSci** Greipel has his boys out front now.

05-10 10:59

**donny** there is but one question to ask, and I think his actions answered it already,

05-10 11:00

Buster

**Tim in Ky** Lotto S on the right, QS on the left.

05-10 11:00

**donny** So GC boys getting out of the way for the most part now. It is up to the sprinters

05-10 11:00

now.

**donny** Ewan well placed behind the Gorilla who has to be the favorite for the day

05-10 11:01

**Mons Soseman** That's about as pretty and as easy a 180 as your going to get.

05-10 11:02

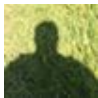

**Tim in Ky** 180 again.

05-10 11:02

	<b>SFinAusTx</b> That the fastest roundabout I've seen.	05-10 11:02
